

# Family Network Circles

**Family Network Circles** - Identifying those people who are close to you and your child who you can call on for help and support; who has helped in the past, and who might be able to help now and in the future?  
Use the circles to map out everyone in your child's natural network, who would you invite to your child's family meeting?

People you have decided to keep out of your family life.

People who may have been important in the past, no/ little contact.

People who are important but set some limits (conditional people).

People who stand behind you & your child no matter what (unconditional people).
